Superior quality allows for consistent health outcomes for desired label claims.

Not a real product, for demonstration purposes only.

6 Solnul® meets FDA's standards on dietary fiber so it's easy to communicate the physiological effects of fiber from resistant starch.

7 Solnul® checks all the boxes when it comes to consumer trends and can enhance storytelling within your romance copy and marketing materials.

8 7 g of Solnul® has 4.2 g of *Insoluble Fiber* that resists digestion and is FULLY fermented and utilized by the gut microbiome.

Learn about Solnul®'s unique fiber attributes

9 Did you know that more prebiotic users choose branded ingredients than in other categories?[1] Including the Solnul® brand name ensures trust and transparency with consumers.

10 Over 52% of consumers prefer real food ingredients[2], so it's important to formulate with a food-sourced prebiotic like Solnul®.

Read FDA's guidance on Solnul®'s common name

11 Directions for optimal consumption helps to educate consumers about the unique properties of RS2 and differentiate it from the other types of resistant starch.
